

## Valve sensor, EGR (L033)

**EGR valve with actuator**

i401210

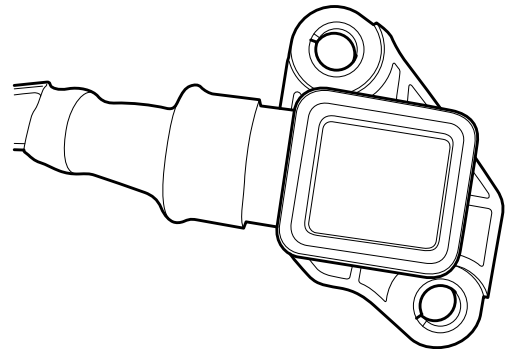

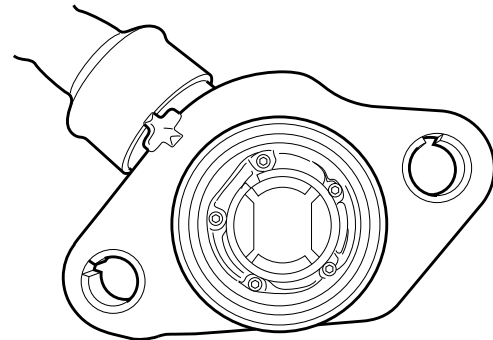

The EGR valve sensor (L033) consists of the following components:

- EGR valve actuator
- EGR valve
- Position sensor

The EGR valve actuator is an electrohydraulic actuator activated by the PMCI-2 unit.

The position sensor measures the position (angle) of the EGR valves and sends a voltage signal to the electronic unit PMCI-2.

**Position sensor**

i401665

### **Effect of output signal on the system:**

- EGR valve position control
- EGR flow control
