

EAS-3 ECU information

To determine which software version is programmed in the ECU, the EAS-3 ECU information function in DAVIE can be used. The following table gives an overview of the release sequence and the part number for the software version.

Release sequence number	Part number component group 1084
1	1844995
2	1843867
3	1852317
4	1825315
5	1857104
6	1732399
7	1725763
8	1872541
9	1830571
10	1887192
11	1889298
12	1892425
13	1896115
14	1910625
15	1919815
16	1928196
17	1949693

Example software version in the service documentation

The read out part number in component group 1084 of an EAS-3 ECU is 1887192. The table shows that this is release sequence number 10.

In the set conditions for a certain fault code, 'release sequence number ≥ 7 ' is written. Therefore these fault code set conditions are valid for release sequence number 7 and all release sequence numbers greater than

7.

Because the release sequence number of the read out software version is 10, these set conditions are valid for this vehicle.

M030290 - 06.18.2013
